THE INDUSTRY MEETING with a new conference concept

On 22 March 2024, DA Service GmbH is once again organising the FACHTAGUNG ABBRUCH 2024 for Deutscher Abbruchverband e.V. (DA) at STATION BERLIN.

In 2023, over 1,200 attendees and 117 exhibitors attended with a net rented area of over 1,060 square metres. This proved once again that FACHTAGUNG ABBRUCH is THE event in the industry for all European players in demolition and dismantling. So the expectations for 2024 are high!

Conference programme

For the first time, the conference programme has a title theme:

SUSTAINABILITY in DEMOLITION

The conference programme consists of a **panel discussion** with proven experts in the field of sustainability, such as Prof. Dr. Christian Berg and Sybille Mai.

In addition, the programme includes **10 further presentations by experts on sustainable topics in demolition**, each followed by a discussion, so that the attendees are more closely involved.

This year, for example, there will be a report on "**Urban Mining in Perfection**", as well as information on "**Demolition material as an economic CO2 sink**". "**Selected examples of controlled blasting of buildings**" will also be presented.

The conference will be moderated by TV journalist Kristina zur Mühlen.

Industry exhibition

More than 85 exhibitors with over 950 square metres of net exhibition space have already registered for the industry exhibition with a wide range of products. **The current list of exhibitors can be viewed on the event website and registration as an exhibitor is still possible until 5. January 2024.**

Dialogue evening

The dialogue evening will traditionally also take place at STATION BERLIN, so the exhibition will remain open in parallel to the dialogue evening. This improves the exchange and information opportunities for both sides - attendees and exhibitors - and enables **a variety of networking opportunities throughout the evening.**

Sponsors

The fact that the FACHTAGUNG ABBRUCH is well established is demonstrated by the very pleasing number of sponsors that have already been acquired. The DA would like to express its sincere thanks to its supporters!

Some SILVER sponsorship packages and large advertising banners are still available for purchase.

Programme and registration

You can view the programme of the FACHTAGUNG ABBRUCH 2024 on the event website www.fachtagung-abbruch.de/en, where you will find all further information and details about the event.

You can also register exclusively online for attendance at the FACHTAGUNG ABBRUCH 2024 **under the category "Attendees", which is possible until 1. March 2024.**

DA Service GmbH and Deutscher Abbruchverband e.V. are looking forward to welcoming you and, above all, to seeing you again!

2,770 characters incl. spaces

Since 1951, the Deutscher Abbruchverband e.V. – DA (German Demolition Association) has been the leading business association in the demolition industry with a head office in Cologne and a further office in Berlin. Its over 800 member companies come from the fields of construction and industrial demolition as well as mineral waste recycling and remediation of pollutants. Engineering offices and machine manufacturers support the association as supporting members. The DA provides its members and the general public with comprehensive information on the technical and legal bases of demolition work and its development and ensures that practical experience is incorporated into political and economic decisions as well as into technical standards and regulations, especially in the environmental field. The focus of the association's activities is on education and training, environmental and recycling issues in connection with demolition work and construction waste, as well as quality assurance during demolition and dismantling.
